Offer No. QLT200J

Laser surface treatment machine

Technical data for 200W laser cleaning machine

Model name	**QLT200J**
Laser source type	**Mopa optical fiber**
Laser beam max. power	**200 W**
Optical cable lenght	**5 m**
Laser pulse energy	**2 mJ**
Laser beam wave lenght	**1064 um**
Laser beam frequency	**1 – 2000 kHz**
Surface cleaning efficiency	**≤20 m²/h**
Surface scan efficiency	**0 – 7000 mm/s**
Type of cooling	**Air**
Outer case dimensions	**900x450x950 mm**
Set* weight	**90 kg**
Laser head weight	**2.5 kg**
Laser beam width	**10 – 170 mm**
Type of use	**Manual, portable**
Work environment temperature	**5 – 40* C**
Voltage	**1f, 110/220 V, 50/60 Hz**
Warranty**	**24/12mo**

***QLT200J set includes:**

- laser cleaning machine main case – 1pc;
- laser output head with optical cables – 1pc;
- touch control panel – 1pc;
- manual – 1pc;
- protection glasses – 2pcs;
- laser outlet lens – 1pcs;
- connection cable – 1pc.

****Warranty includes:**

- 24month factory warranty for Mopa laser source;
- 12month warranty for all other components.

*****Price includes:**

- DAP transportation costs;
- DAP insurance costs;
- customs clearance procedure and tax;
- machine introduction, setup and training on customers site;
- delivery time 45-60 business days.
